#### Caveats

- 1) Plans are subject to survey and may change
- 2) Some postcodes may only have partial coverage
- 3) Some postcodes may be addressed in one or more phases up to the end of 2020
- 4) Some premises covered by fibre may not obtain download speeds in excess of 24Mbps
- 5) Delivery dates may be subject to change, and maybe brought forward or pushed back
- 6) \*Partial Coverage - These areas are a mixture of the following:
  - "Some premises in these postcodes can already receive fibre broadband, either through commercial providers or the Digital Derbyshire programme.
  - "Some premises in these postcodes are scheduled to receive fibre broadband, either through commercial providers or the Digital Derbyshire programme by the end of 2018.
  - "Some premises in these postcodes are under consideration for future fibre investment.

NB: Commercial delivery relates to the coverage of fibre broadband by commercial operators up to the end of 2020, and is excluded from the Digital Derbyshire programme. The information on commercial coverage was collated through open market reviews in 2013 and 2014, plus a public consultation in 2016.
